

# Fast & reliable import vehicle Compliance

## WHY US

### WE ARE UNIQUE

We offer a Premium end to end solution that no other compliance workshop in QLD offers.

### FAST TURNAROUND TIMES

Our average turnaround time is 3 business days from the vehicle arriving at our workshop, to it being ready for you to drive away.

### ONSITE REGISTRATION

As an approved inspection station, we can issue you with a vehicle safety certificate. Our onsite registration service means you can drive away the same day that your vehicle is complied.

### WARRANTY

We have a comprehensive range of 1, 3 and 5 year warranty options to complement the purchase of your new vehicle.

### TRADE DISCOUNT

Trade discounts are available for large import quantities.

### LOCATION

We are located 15 minutes from the Port of Brisbane and just minutes away from the M1 Carindale exit.

## TYPES OF VEHICLES

- Specialist and enthusiast vehicles (SEVS)
- Personal "effects" imports
- 25+ year old vehicles

## IMPORT APPROVAL

Acting on your behalf, we will obtain import approval for your vehicle from the Australian Road Vehicle Regulator (ROVER). This should be completed 30 days before your vehicle is due to arrive. Recall checks will also be conducted at this time.

## TRANSPORT

We offer a port to compliance delivery service, with our own car carrier and drivers with MSIC cards. We aim to have vehicles off the Port within 24 hours of their release.

## COMPLIANCE

Our Registered Automotive Workshop (RAW) will ensure your vehicles completely comply with Australian standards. We are able to comply almost all vehicles on the SEV register. We have onsite tire facilities should your vehicle need new tires for ADR compliance; and batteries to ensure your vehicle will start.
